

EPIFANES Yacht Coatings

yacht enamel

Epifanes 1-K Yachtlack: Durch die Verwendung lichtechter Farbpigmente, kombiniert mit geschmeidig fließenden Kunstharzen, hat dieser Bootsack nicht nur eine außergewöhnliche Deckfähigkeit sondern behält auch jahrelang seinen Glanz.
Epifanes Bootsack basiert auf modifizierten Alkyd Harzen.

monourethane

Epifanes Monourethane: Years of testing and on-vessel experience have proven this unique finish to be the most advanced, highly-engineered single-component formulation, based on urethane-alkyd resins, available. It gives incredibly hard urethane abrasion and chemical resistance with outstanding gloss, durability, color retention and U.V. protection.

17 colors

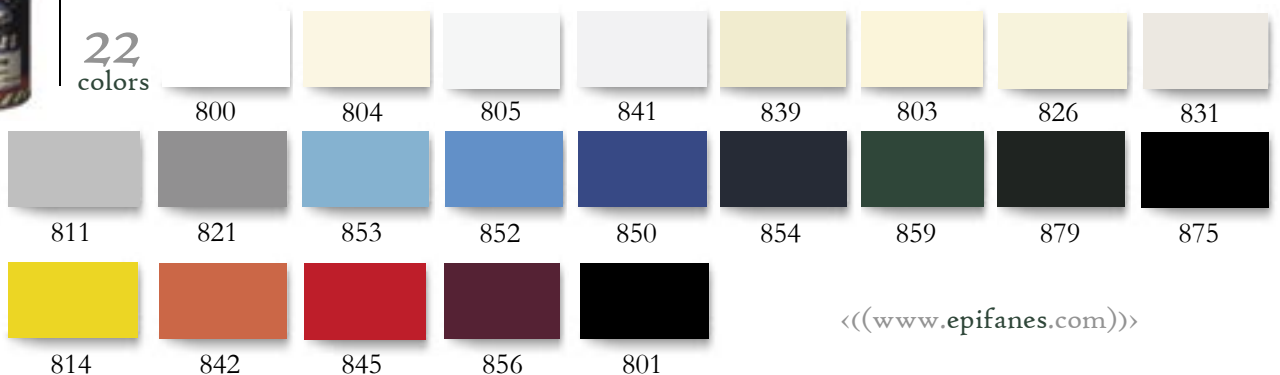

polyurethane

Epifanes Polyurethane: Two-component polyester saturated aliphatic urethane coating, formulated for maximum resin depth and hardness with a long lasting mirror-like gloss. Excellent finishing coat for fiberglass, steel, aluminum and plywood. Super resistance to abrasion, weathering, chemicals and loss of gloss.
